Contents of Volume 37

Acta Pathol. Jpn. **37**, 1987

Number 1

Coronary Atherosclerosis in Patients with Systemic Lupus Erythematosus at Autopsy: S. FUKUMOTO, T. TSUMAGARI, M. KINJO, and K. TANAKA 1- 9
Diffuse Interstitial Pulmonary Fibrosis and Lung Cancer: T. KAWAI, K. YAKUMARU, M. SUZUKI, and K. KAGEYAMA 11- 19
A Pathological Study on Colorectal Cancer —— From De Novo Carcinoma to Advanced Carcinoma: M. IKEGAMI 21- 37
Complete and Incomplete Pyloric Gland Metaplasia of Human Gallbladder: M. TATEMATSU, C. FURIHATA, K. MIKI, M. ICHINOSE, T. SHIRAI, K. TATEMATSU, and N. ITO 39- 46
Pancreatoblastoma in Japan, with Differential Diagnosis from Papillary Cystic Tumor (Ductuloacinar Adenoma) of the Pancreas: A. HORIE, J. HARATAKE, A. JIMI, M. MATSUMOTO, N. ISHII, and Y. TSUTSUMI 47- 63
Human Normal and Neoplastic Adrenocortical Cells in Tissue Culture Observed by Scanning Electron Microscopy: K. MATSUO and H. TSUCHIYAMA 65- 76
Disseminated Intravascular Coagulation (DIC) —— Immunohistochemical Study of Fibrin-Related Materials (FRMs) in Renal Tissues: H. KAWASAKI, K. HAYASHI, and M. AWAI 77- 84
An Immunohistochemical Study on the Distribution of Glial Fibrillary Acidic Protein, S-100 Protein, Neuron-specific Enolase, and Neurofilament in Medulloblastomas: K. HAYASHI, M. MOTOI, S. NOSE, Y. HORIE, T. AKAGI, K. OGAWA, K. TAGUCHI, K. MIZOBUCHI, and A. NISHIMOTO 85- 96
Normal Pressure Hydrocephalus —— Neuropathological Study: K. AKAI, S. UCHIGASAKI, U. TANAKA, and A. KOMATSU 97- 110
Long Term Survival Case of Small (Oat) Cell Carcinoma of the Rectum: K. SHIROUZU, T. MORODOMI, H. ISOMOTO, S. ONO, T. KAKEGAWA, F. YASUAKI, and M. MORIMATSU 111- 116
Demonstration of Pituitary Tissue with 6 Cells Immunoreactive to Pituitary Hormones in a Sacrococcygeal Teratoma: H. IKEDA and N. SASANO 117- 122
Catecholamine-induced Cardiopathy Accompanied with Pheochromocytoma: T. CHO, A. TANIMURA, and Y. SAITO 123- 132
Systemic Amyloidosis with a Mesenteric Mass Which had the Appearance of Proteinaceous Lymphadenopathy: N. OYAIZU, N. SHIKATA, A. TSUBURA, S. MORII, N. TANIGUCHI, and K. MIURA 133- 139
Multiple Myeloma, IgA $\varkappa$ Type, Accompanying Crystal-Storing Histiocytosis and Amyloidosis: K. TAKAHASHI, M. NAITO, K. TAKATSUKI, F. KONO, M. CHITOSE, S. OOSHIMA, N. MORI, H. SAKUMA, and F. UCHINO 141- 154
Hepatitis-Associated Aplastic Anemia with Systemic Plasmacytosis: Y. NISHIMOTO, T. IWAHASHI, T. NISHIHARA, H. KATAYAMA, K. KURIBAYASHI, T. TAKAO, and K. SAITO 155- 166
Systemic Mastocytosis without Cutaneous Involvement: S. KATSUDA, Y. OKADA, Y. ODA, K. TANIMOTO, and S. TAKABATAKE 167- 177

Number 2

Comparative Microcytometric Analysis of European Peripheral T-cell Malignant Lymphomas (EPTL) and Adult T-cell Leukemia/Lymphomas (ATLL) in Japan: K. Hasui, E. Sato, M.L. Hansmann, T. Tokudome, and M. Tokunaga 179- 192
Distribution of Immunoglobulin Containing Cells in Human Bone Marrow of Patients with Leukemia: K. Suzuki, K. Hirokawa, R. Kamiyama, and S. Hatakeyama 193- 199
Ultrastructural and Immunological Studies of Virus Particles Observed in a T-cell Line Derived from a Mouse Spontaneous Lymphoma: Y. Ohtsuki, S. Fujimoto, M. Takata, A. Aoyama, M. Hoshino, and T. Akagi 201- 206
Ultrastructural Study of Lymphocytic Interaction with Hepatocytes and Endothelial Cells in Acute Non-A, Non-B Hepatitis: O. Inoue, H. Itakura, K. Toriyama, A. Satoh, R. Furukawa, Y. Kusumoto, N. Ishii, T. Koji, and S. Nagataki 207- 212
Ultrastructural Morphogenesis of Mitochondria in Alcoholic Liver: E.S. Chang 213- 224
Protein Synthesis in Ito Cells (Fat-storing Cells) of Cultured Liver Tissues from CCl_4-treated Mice —— A Light and Electron Microscopic Autoradiographic Study: H. Enzan 225- 230
Tissue Copper Content in Primary and Metastatic Liver Cancers: J. Haratake, A. Horie, S. Takeda, K. Kobori, H. Sato, and S. Tokudome 231- 238
Flow Loaded Canine Carotid Artery —— II. Ultrastructural Changes in the Subendothelial Layer: H. Masuda, N. Saito, K. Kawamura, T. Shozawa, A. Kanazawa, and M. Sageshima 239- 251
Amylase in Thyroid Tissues from Normal and Various Thyroid Diseases —— Biochemical and Immunohistochemical Study: Y. Mizukami, F. Matsubara, T. Hashimoto, J. Okumura, S. Matsukawa, and K. Tanishima 253- 260
Lipid Storage Disease: Part III —— Ultrastructural Evaluation of Cultured Fibroblasts in Sphingolipidoses: K. Takahashi, M. Naito, and Y. Suzuki 261- 272
Growth Promotion of Urothelial Cells by a Silk Suture in the Bladder Walls of Rats: T. Shimamura 273- 280
Membranous Lipodystrophy —— Light and Electron Microscopic Study of a Biopsy Case: M. Sageshima, H. Masuda, K. Kawamura, and T. Shozawa 281- 290
Primary Leiomyosarcoma of Bone —— A Case Report and Review of the Literature: N. Kameda, M. Kagesawa, N. Hiruta, M. Akima, M. Ohki, and T. Matsumoto 291- 303
High Alkaline Phosphatase Activity of Telangiectatic Osteosarcoma (TOS) and Its Diagnostic Significance: H. Yoshida, H. Adachi, S. Naniwa, T. Yumoto, K. Morimoto, and K. Furuse 305- 313
Myxoid Sarcoma Arising from the Pulmonary Trunk: E. Atari and M. Okudaira 315- 322
Encephalocele, Polycystic Kidneys, and Polydactyly with Other Defects —— A Necropsy Case of Meckel Syndrome and a Review of Literature: N. Ueda, N. Sasaki, A. Sugita, N. Gotoh, S. Yamamoto, T. Yano, H. Ochi, T. Nishimura, S. Matsuura, and R. Fukunishi 323- 330
Merkel Cell Tumor Coexpressing Cytokeratin and Neurofilament Proteins: Y. Sadahira, S. Nakamoto, M. Mori, C.L. Hsueh, and M. Awai 331- 337
Distribution of Keratin Protein in Normal Prostate and Prostatic Tumors —— An Immunohistochemical Study: T. Kuwahara and T. Nagayama 339- 342

Number 3

Statistical Analysis of the Organ Weights in 1,000 Autopsy Cases of Japanese Aged over 60

Years: T. Inoue and S. Otsu 343- 359
Angiographic Difference in Coronary Artery of Man, Dog, Pig, and Monkey: T. Kato, T. Yasue, Y. Shoji, S. Shimabukuro, Y. Ito, S. Goto, S. Motooka, T. Uno, and A. Ojima 361- 373
A Quantitative Study on the Distribution of Asbestos Bodies in Extrapulmonary Organs: H. Kobayashi, Z.W. Ming, H. Watanabe, and Y. Ohnishi 375- 383
Genetic Mucopolysaccharidoses, Mannosidosis, Sialidosis, Galactosialidosis, and I-Cell Disease —— Ultrastructural Analysis of Cultured Fibroblasts: K. Takahashi, M. Naito, and Y. Suzuki 385- 400
Primary Pulmonary Hypertension —— Study of Eight Autopsy Cases: M. Fujinami, S. Morimoto, T. Nishikawa, A. Sato, Y. Yamada, and A. Kajita..... 401- 412
Fibronectin in Human Hepatocellular Carcinoma (HCC) and HCC Cell Lines: J. Tsumagari..... 413- 423
Loss of Intracellular Peroxidase and Anaplastic Change of Differentiated Carcinoma of Human Thyroid Gland: H. Yamashita, S. Noguchi, N. Murakami, S. Yokoyama, and I. Nakayama 425- 430
Human Testicular Germ Cell Tumors in Vitro and in Athymic Nude Mice: T. Motoyama, H. Watanabe, T. Yamamoto, and M. Sekiguchi 431- 448
"HPV Score", a Scoring System for Histological Diagnosis of Human Papillomavirus Infection in Dysplasia of the Uterine Cervix: T. Toki and A. Yajima 449- 455
Structural Characterization of Neovascularization in Adenovirus-12-induced Retinal Tumor: T. Sawada, M. Nakamura, I. Sakurai, N. Mukai, and M. Kobayashi 457- 486
Co-carcinogenic Effect of Asbestos and Benzo(a)pyrene in the Lung of Hamster: G. Kimizuka, H. Ohwada, and Y. Hayashi..... 465- 474
Alveolar Destruction in Experimental Klebsiella Pneumonia: K. Irifune 475- 486
Time Study of Macroscopic Identification of Experimental Cerebral Infarction in Rat: K. Hamaya and K. Doi 487- 492
Giant Cell Pneumonia in Letterer-Siwe Disease: T. Shimizu, N. Fukushima, Y. Ebihara, T. Sata, and Y. Aoyama..... 493- 501
Lymphangioma of the Pancreas —— A Case Report with Electron Microscopic Observations: T. Murao, K. Toda, and Y. Tomiyama 503- 510
Primary Cutaneous Meningioma —— Report of a Case: S. Kakizoe, M. Kojiro, and N. Hikita 511- 514
Malignant Lymphoepithelial Lesion: M. Kitazawa, Y. Ohnishi, N. Nonomura, and E. Kobayashi 515- 526

Number 4

Atherosclerosis and Endothelium —— Part 1. A Simple Method of Endothelial Cell Culture from Human Atherosclerotic Aorta: O. Tokunaga and T. Watanabe 527- 536
An Altered Lectin Binding to Mucus Glycoprotein in Goblet Cells of Human Tracheobronchial Epithelium Among Former Mustard-gas Workers: K. Inai, E. Kou, S. Nambu, and S. Tokuoka 537- 548
Alimentary Tract Lesions in Cytomegalovirus Infection: T. Iwasaki 549- 565
Renal Cell Carcinoma of Lower Nephron Origin: S. Aizawa, Y. Kikuchi, M. Suzuki, and M. Furusato 567- 574
A Light Microscopical Study of Isolated Follicular Dendritic Cell-clusters in Human

Tonsils: R. Tsunoda and M. Kojima 575- 585
Glucocorticoid-induced Growth Inhibition of Human Neoplastic Salivary Gland Duct Cell Line (HSG): S. Hatakeyama, R. Kurokawa, M. Satoh, A. Suzuki, M. Ota, and K. Shirasuna 587- 595
Monophasic and Biphasic Synovial Sarcoma —— An Immunohistochemical Study: M. Tsujimoto, T. Ueda, H. Nakashima, H. Hamada, S. Ishiguro, and K. Aozasa .. 597- 604
Ultrastructural Study of Hemangiomas —— 5. Glomus Tumor (Masson): M. Kojimahara, Y. Baba, and T. Nakajima 605- 609
Production of Collagen Fibrils in Adrenocortical Adenoma with Cushing's Syndrome: K. Matsuo and H. Tsuchiyama 611- 614
Chondroid Syringoma (Mixed Tumor of the Skin) —— A Clinicopathological Study of 13 Cases: H. Kunikane, H. Ishikura, J. Yamaguchi, T. Yoshiki, T. Itoh, and M. Aizawa 615- 625
Foamy Cells Associated with Phagocytosis of Glutaraldehyde-treated Red Blood Cells and Red Cell Membranes: T. Ishihara, J. Sano, S. Yamanami, Y. Yamashita, M. Takahashi, F. Uchino, and N. Matsumoto 627- 637
Giant Cell Myocarditis in Association with Drug-induced Skin Eruption: H. Ishikawa, H. Kaneko, H. Watanabe, A. Takagi, and Z.W. Ming 639- 644
Cardiac Rhabdomyoma Associated with Tuberous Sclerosis——An Autopsy Case of Newborn Infant Died of Cardiac Failure: H. Yamashita, H. Nagaoka, R. Matsushima, I. Nakayama, K. Goto, T. Ogawa, and H. Fujii 645- 653
Adenovirus Hepatitis in a Patient with Severe Combined Immunodeficiency: M. Ohbu, K. Sasaki, M. Okudaira, K. Iidaka, and Y. Aoyama 655- 664
Malignant Lymphoma, Large Cell Immunoblastic Clear Cell Showing Unusual Histologic Picture: M. Kajiwara, T. Shimizu, T. Takami, K. Yamashiro, C. Mikuni, and A. Miyakawa 665- 675
Massive Osteolysis of the Mandible: Y. Takeda, M. Kuroda, A. Suzuki, Y. Fujioka and K. Takayama 677- 684
Pleomorphic Adenoma with a Predominantly Myoepithelial Proliferation of the Vagina: H. Watanabe, S. Katsuda, Y. Okada, A. Ooi, and H. Ueno 685- 692

Number 5

Serial Section Analysis of the Lesions in Diffuse Panbronchiolitis: M. Maeda, S. Saiki, and A. Yamanaka 693- 704
Pathology of Experimental Pulmonary Bone Marrow Embolism — II. Post-embolic Pulmonary Arteriosclerosis and Pulmonary Hypertension in Rabbits Receiving an Intravenous Infusion of Allogeneic Bone Marrow: M. Yamamoto 705- 724
Clinicopathological Studies on Pulmonary Hypoplasia in Very Low Birth Weight Infants: K. Itoh, J. Suzuki, K. Sakuragi, K. Uemura, Y. Lee, H. Negishi, and H. Itoh 725- 736
Immunohistochemical Demonstration of Peptide YY in Gastrointestinal Endocrine Tumors: H. Takatoh, H. Iwamoto, M. Ikezu, N. Katoh, S. Ito, and H. Kaneko 737- 746
Dysplasia of Gallbadder — Its Pathological Significance: H. Yamagiwa 747- 754
Ultrastructural Localization of Endogenous Peroxidase Activity in Benign Thyroid Diseases: H. Yamashita, S. Noguchi, N. Murakami, A. Moriuchi, and I. Nakayama 755- 762
Histological Changes of Bile Duct in Experimental Graft-Versus-Host Disease Across Minor Histocompatibility Barriers — I. Light Microscopic and Immunocytochemical Observations: A. Nonomura, H. Koizumi, K. Yoshida, and G. Ohta 763- 773

Malignant Granular Cell Tumor of the Esophagus — A Case Report with Light and Electron Microscopic, Histochemical, and Immunohistochemical Study: T. Ohmori, N. Arita, N. Uraga, R. Tabei, M. Tani, and H. Okamura 775- 783
So-called "Papillary and Cystic Neoplasm of the Pancreas" — An Immunohistochemical and Ultrastructural Study: T. Kamisawa, M. Fukayama, M. Koike, I. Tabata, and A. Okamoto 785- 794
Multicentric Hepatocellular Carcinoma Following Phosphate Diethylstilbestrol Therapy for Prostatic Cancer: H. Endo, T. Murakami, I. Nishimoto, I. Sekine, and M. Yokoyama 795- 806
Anaplastic Carcinoma of the Thyroid with Osteoclast-like Giant Cells — An Ultrastructural and Immunohistochemical Study: S. Kobayashi, I. Yamadori, M. Ohmori, T. Kurokawa, and M. Umeda 807- 815
Three Cases of Secondary Leukemia — Clinicopathologic Findings: K. Nemoto, K. Honma, Y. Ohnishi, M. Abe, and A. Abe 817- 830
Argyrophilic Adenocarcinoma of the Prostate with Paneth Cell-like Granules: J. Haratake, A. Horie, and K. Ito 831- 836
Primary Trabecular Carcinoid of the Ovary: M. Hayashi, Y. Yabuki, A. Asamoto, N. Kohno, and G. Ohta 837- 842
Ultrastructural Characteristics of a Pleomorphic Liposarcoma — A Possible Involvement of Myofibroblast: T. Suzuki 843- 852
Systemic Amyloid Arthropathy Associated with Multiple Myeloma: C. Kurashima, K. Hirokawa, K. Kato, H. Shimada, Y. Esaki, T. Miwa, and M. Mori 853- 861
Disseminated Visceral Giant Cell Arteritis: T. Morita, A. Kamimura, and F. Koizumi 863- 870

Number 6

Classification of Cardiac Rupture Complicated in Myocardial Infarction — Pathological Study of 32 Cases: T. Shozawa, H. Masuda, M. Sageshima, K. Kawamura, E. Okada, and N. Saito 871- 886
Dermatopathic Lymphadenopathy — Electronmicroscopic, Enzyme-histochemical and Immunohistochemical Study: S. Asano, T. Muramatsu, H. Kanno, and H. Wakasa 887- 900
Immunohistochemical and Ultrastructural Studies on Histiocytosis in Children: J. Wakuya 901- 913
An Immuno-electron Microscopic Study on Intra and Extracellular Localization of Alpha-fetoprotein in Human Hepatocellular Carcinoma: K. Okada, I. Nakayama, and M. Kobayashi 915- 928
Primary Liver Cell Carcinoma — New Insight for a More Correct Approach to its Classification: W.F. Grigioni, A. D'Errico, G. Biagini, V. Villanacci, A. Mazziotti, L.A. Liotta, S. Garbisa, and A.M. Mancini 929- 940
Immunological Homogeneity of Lafora Body, Corpora Amylacea, Basophilic Degeneration in Heart, and Intracytoplasmic Inclusions of Liver and Heart in Type IV Glycogenosis: T. Yokota, T. Ishihara, H. Kawano, Y. Yamashita, M. Takahashi, F. Uchino, T. Kamei, Y. Kusunose, M. Yamada, and N. Matsumoto 941- 946
Clinicopathological Study on Small Renal Cell Carcinomas with Metastases: S. Aizawa, M. Suzuki, Y. Kikuchi, T. Nikaido, and K. Matsumoto 947- 954
Dietary Magnesium Effect on Swine Coronary Atherosclerosis Induced by Hypervitaminosis

D: M. Ito, I. Sekine, and F.A. Kummerow 955- 964
Diisopropanolnitrosamine (DIPN) Induced Rat Thyroid Lesions — I. A Histological Classification: A. Kawaoi and S. Moriyama 965- 973
Experimental Tumors of Myxoid Malignant Fibrous Histiocytoma and Hyaluronic Acid Production: Y. Hagari and T. Yumoto 975- 988
Carcinoma with Signet Ring Cells of the Esophagus: K. Takubo, A. Takai, K. Yamashita, and M. Onda 989- 995
Spindle Cell Carcinoma of the Uterus: T. Hirose, T. Sano, J. Abe, K. Hizawa, and T. Mori 997-1002
Exfoliative Cytopathology of Alveolar Rhabdomyosarcoma: A. Nishikawa, T. Tanaka, N. Kanai, K. Kato, H. Mori, and M. Takahashi 1003-1007
Malignant Ganglioglioma of the Spinal Cord: M. Kitano, S. Takayama, T. Nagao, and O. Yoshimura 1009-1018
Papillary Adenoma in a Lateral Cervical Cyst: T. Suzuki 1019-1024
Merkel Cell Tumor: M. Kitazawa, H. Watanabe, H. Kobayashi, Y. Ohnishi, A. Shitara, and H. Nitto 1025-1032
Ventriculo-coronary Micro-communications in Pulmonary Atresia and Sequential Changes of Coronary Arteries: T. Yokose, M. Doi, Y. Kimura, and T. Ogata 1033-1040

Number 7

Histopathological Study of Hypertrophic Cardiomyopathy with Progression to Left Ventricular Dilatation: C. Yutani, M. Imakita, H. Ishibashi-Ueda, S. Nagata, H. Sakakibara, and Y. Nimura 1041-1052
Inter- and Intra-Pathologist Variability in Histologic Diagnoses of Lung Cancer: J. Haratake, A. Horie, S. Tokudome, S. Era, H. Fujii, J. Kawachi, Y. Miyamoto, S. Suko, M. Tokunaga, K. Tsuji, M. Ikeda, and M. Kuratsune 1053-1060
Primary Adenocarcinoma of the Small Intestine with Emphasis on Microvillous Differentiation: M. Yamashina 1061-1070
Necrotizing Lymphadenitis — Electron Microscopical and Immunohistochemical Study: S. Asano, H. Kanno, K. Tominaga, T. Muramatsu, Y. Nozawa, Y. Akaike, H. Segami, and H. Wakasa 1071-1084
Follicle Structure-dependency of Thyroglobulin and Thyroxin Staining in the Thyroid Glands of Graves' Disease: M. Aiba, A. Hirayama, T. Yamashita, Y. Ito, T. Obara, and Y. Fujimoto 1085-1095
Histochemical Demonstration of Colonic Type Mucin in Glandular Metaplasia and Adenocarcinoma of the Human Urinary Bladder: R. Hasegawa, S. Fukushima, M. Hirose, K. Seki, M. Takahashi, F. Furukawa, K. Toyoda, and N. Ito 1097-1103
Melanocytes in the Nasal Cavity and Paranasal Sinus — Incidence and Distribution in Japan: T. Uehara, O. Matsubara, and T. Kasuga 1105-1114
Ultrastructural Study on the Pulmonary Parenchyma of the Neonates Following Prolonged Mechanical Ventilation: T. Takemura and H. Akamatsu 1115-1126
A Study on the Mechanism of Acute Hepatic Necrosis Following Partial Resection of the Liver: M. Shirai, J. Shiga, and W. Mori 1127-1134
Monoclonal Antibodies Against Synthesized Short Peptides Corresponding to Human AA Amyloid Protein: T. Yokota, T. Ishihara, M. Takahashi, Y. Yamashita, H. Kawano, Y. Fujinaga, F. Uchino, N. Hanai, H. Yoshida, S. Honda, M. Sato, and N. Matsumoto 1135-1142
Anti-glucocorticoid Effects of Melatonin on Adult Rats: H. Aoyama, N. Mori, and W.

Mori 1143-1148
Malignant Peritoneal Mesothelioma as a Pelvic Mass — Application of Athymic Mice in Clinical Pathology: M. Fukayama, T. Takizawa, M. Koike, T. Mori, and T. Matsui 1149-1156
Primary Mucin-Producing Adenosquamous Carcinoma of the Thyroid Gland: Y. Mizukami, F. Matsubara, T. Hashimoto, S. Terahata, H. Noto, M. Noguchi, and T. Michigishi 1157-1164
Hepatocellular Carcinoma with Chondrosarcomatous Variation — A Case Report and Review of the Literature: A. Ooi, S. Katsuda, I. Nakanishi, N. Nakamura, F. Matsushita, N. Tanaka, and K. Kobayashi 1165-1173
Electron Microscopic Study of Mucoepidermoid Carcinoma in the Pancreas: Y. Ohtsuki, T. Yoshino, K. Takahashi, H. Sonobe, K. Kohno, and T. Akagi 1175-1182
Minute Carcinoid Tumor of the Uterine Cervix Associated with Microinvasive Adenocarcinoma, with Reference to Its Histogenesis: S. Muraoka, T. Takahashi, M. Ando, Y. Nishikawa, M. Fujita, and A. Shimoda 1183-1198
Malignant Brenner Tumor with Peritoneal Metastasis: K. Hayashi, K. Takahashi, H. Sonobe, Y. Ohtsuki, T. Yoshino, A. Tsutsumi, K. Taguchi, and T. Fujimori .. 1199-1206

Number 8

Localization of Ferritin in Human Liver Diseases Studied by Immuno-histochemical and Immuno-electron Microscopic Procedures: T. Ishimatsu and I. Nakayama 1207-1221
Bile Ductal and Ductular Changes of the Livers in the Renal Allografted Patients: T. Wakabayashi, S. Mori, J. Pastolero, and H. Sugimura 1223-1236
Argyrophil, Non-argentaffin Carcinoids of the Appendix Vermiformis — Immunohistochemical and Ultrastructural Studies: M. Iwafuchi, H. Watanabe, H. Kijima, Y. Ajioka, T. Shimoda, and S. Ito 1237-1247
Correlation Between Glycoconjugate Expression and Fucosyltransferase Activity in Human Colorectal Carcinoma: S. Yonezawa, Y. Matsushita, H. Muramatsu, Y. Arita, T. Nakamura, T. Muramatsu, and E. Sato 1249-1261
Production of Alpha-fetoprotein by Human Germ Cell Tumors *in vivo* and *in vitro*: T. Motoyama, H. Watanabe, T. Yamamoto, and M. Sekiguchi 1263-1277
An Immunohistochemical Study of Experimental Disseminated Intravascular Coagulation (DIC): H. Toyofuku, K. Hayashi, and M. Awai 1279-1290
Passive Transfer of Experimental Allergic Encephalomyelitis with Llymphocytes Collected from Brains of Immunized Guinea Pigs: T. Ohkawa and F. Chino 1291-1296
Induction of Melanogenesis in Schwann Cell and Perineural Epithelium by 9, 10-dimethyl-1, 2-benzanthracene (DMBA) and 12-o-tetradecanoyl-phorbol-13-acetate (TPA) in BDF_1 Mice: J. Kanno, O. Matsubara, and T. Kasuga 1297-1304
Collagen-producing Mesothelial Cells in Adriamycin-induced Pleuritis in Rat — Microautoradiographic Study Utilizing Tritiated Proline: K. Isoda, T. Maeda, and Y. Hamamoto 1305-1317
Alagille's Syndrome — A Case with a Hamartomatous Nodule of the Liver: A. Nishikawa, H. Mori, M. Takahashi, A. Ojima, K. Shimokawa, and T. Furuta 1319-1326
Osteoclast-like Giant Cell Tumor of the Liver: Y. Horie, T. Hori, C. Hirayama, K. Hashimoto, T. Yumoto, and K. Tanikawa 1327-1335
Neoplastic Angioendotheliomatosis — Report of Two Autopsy Cases with Special Reference to the Origin of Atypical Cells: T. Nakamura, M. Watanabe, M. Hotchi, N. Fujimori, and M. Mizuno 1337-1345

Bilateral Ovarian Hemangiomas Associated with Diffuse Hemangioendotheliomatosis: A Case Report: J. Miyauchi, M. Mukai, K. Yamazaki, I. Kiso, S. Higashi, and S. Hori 1347-1355
Functioning Oxyphil Cell Adenoma in a Patient with Secondary Hyperparathyroidism: J. Misonou, H. Ishikura, M. Aizawa, and S. Ohira 1357-1366
Delayed Posttraumatic Ischemic Stricture of the Small Intestine — A Clinicopathologic Study of Four Cases: G. Lien, M. Mori, and M. Enjoji 1367-1374

Number 9

An Autopsy Study of Lung Cancer in University of Tokyo for the Last 27 Years, from 1958 to 1984, with Special Reference to the Characteristics of Lung Cancer in Japan: T. Morita, K. Yamaguchi, T. Shimamine, W. Mori, and Y. Urano 1375-1388
Analysis of Morphological Factors of Hepatocellular Carcinoma in 98 Autopsy Cases with Respect to Pulmonary Metastasis: M. Sawabe, T. Nakamura, J. Kanno, and T. Kasuga 1389-1404
A Comparative Microphotometric Analysis of Adult T-cell Leukemia/Lymphoma (ATLL) in the Skin and Mycosis Fungoides (MF): K. Hasui, E. Sato, T. Tokudome, M. Tokunaga, M. Setoyama, and M. Tashiro 1405-1414
Superficial Leiomyomas — A Clinicopathologic Study of 34 Cases: R. Yokoyama, H. Hashimoto, Y. Daimaru, and M. Enjoji 1415-1422
Antiatheromatous Properties of Elastase in Cholesterol-fed Rabbits and *ex vivo* Suppressive Effect of Elastase on Smooth Muscle Cell Proliferation in the Presence of Hypercholesterolemia: T. Saeki and K. Tanaka 1423-1432
Effect of Hyperlipidemia on Glomerular Sclerosis in Unilateral Nephrectomized Rats: J. Miyata and S. Takebayashi 1433-1439
Diisopropanolnitrosamine (DIPN) Induced Rat Thyroid Lesions — II. An Electron Microscopic Study: A. Kawaoi and S. Moriyama 1441-1453
Diisopropanolnitrosamine (DIPN) Induced Rat Thyroid Lesions — III. An Immunohistochemical Study on Their Functional Aspects: A. Kawaoi and S. Moriyama .. 1455-1463
Histopathologic Observations on the Senescence-accelerated Mice (SAM) Reared under Specific Pathogen Free Conditions: A. Shino, R. Tsukuda, Y. Omori, and T. Matsuo 1465-1475
Uhl's Anomaly as a Result of Progression to Ventricular Dilation from Hypertrophic Cardiomyopathy: C. Yutani, M. Imakita, H. Ishibashi-Ueda, S. Nagata, H. Sakakibara, and Y. Nimura 1477-1488
Autopsy Findings in Two Patients with Homozygous Familial Hypercholesterolemia — Special References to Apolipoprotein B Localization and Internalization Defect of Low Density Lipoprotein: C. Yutani, S. Go, M. Imakita, H. Ishibashi-Ueda, K. Hatanaka, and A. Yamamoto 1489-1504
Hodgkin's Disease Accompanied with Thymoma: K. Nemoto, H. Ishikawa, Y. Ohnishi, T. Nakamura, and N. Ohsaki 1505-1512
Immature Cerebellar Astrocytoma in an Infant: M. Sageshima, H. Masuda, K. Kawamura, and T. Shozawa 1513-1520
Clear Cell Carcinoma of the Rancreas: N. Kanai, S. Nagaki, and T. Tanaka 1521-1526
Fetal Ascites — A Report of 3 Autopsy Cases: A. Sakamoto, K. Matsuo, K. Kawai, K. Yoshida, K. Fukuda, M. Nakano, A. Nakatani, H. Tsuchiyama, and H. Tagawa 1527-1535

Number 10

Fiber Type Differentiation and Myosin Expression in Regenerating Rat Muscles: J. Abe, Y. Fujii, Y. Kuwamura, and K. Hizawa 1537-1547
Clinicopathologic and Experimental Studies on Cases of Abnormal Pancreatico-choledocho-ductal Junction: K. Suda, T. Miyano, F. Suzuki, M. Matsumoto, Y. Yamashiro, T. Tokumaru, T. Oyama, and Y. Matsumoto 1549-1562
Papillary Carcinoma of the Thyroid — A Histochemical, Immunohistochemical and Ultrastructural Study with Special Reference to the Follicular Variant: T. Eimoto, H. Naito, S. Hamada, M. Masuda, T. Harada, and M. Kikuchi 1563-1579
Immunohistochemical Study of Pancreatoblastoma: Y. Ohaki, K. Misugi, J. Fukuda, M. Okudaira, and M. Hirose 1581-1590
Comparative Study of the Intracytoplasmic Inclusions in Lafora Disease and Type IV Glycogenosis by Electron Microscopy: T. Ishihara, T. Yokota, Y. Yamashita, M. Takahashi, H. Kawano, F. Uchino, T. Kamei, N. Matsumoto, Y. Kusunose, and M. Yamada 1591-1601
Minor Salivary Gland Swelling in Patient with Sjögren's Syndrome: Y. Takeda, A. Suzuki, M. Kuroda Y. Fujioka, and K. Takayama 1603-1609
C Cells in Hashimoto's Thyroiditis — Ultrastructural and Immunohistochemical Observations: R. Katoh 1611-1620
Light and Electron Microscopic Observation on the Process of Tissue Calcification in a Case of Parathyroid Adenoma: N. Monma, T. Iwasaki, T. Masuda, and R. Satodate 1621-1635
Primary Intrahepatic Sclerosing Cholangitis with Inflammatory Bowel Disease: T. Ishikawa, H. Aoyama, H. Ohtake, S. Ohnishi, H. Aburatani, M. Imawari, J. Shiga, and F. Takaku 1637-1643
Idiopathic Portal Hypertension Associated with Polyclonal Hyperimmunoglobulinemia — A Case Report and Review of the Literature: T. Tsujimura, T. Nakanishi, H. Sano, and T. Takeuchi 1645-1651
Thorotrast-induced Hepatic Angiosarcoma with 39 Years Latency — A Pathologic and Immunohistochemical Study: M. Abe and H. Wakasa 1653-1660
Acute Pancreatitis with Cytomegalovirus Infection: T. Iwasaki, A. Tashiro R. Satodate, T. Sata, and T. Kurata 1661-1668
Multiple Carcinoid Tumor Combined with Mucosal Carcinoma in the Stomach — A Case Report: T. Yoshino, Y. Ohtsuki, Y. Shimada, K. Takahashi, H. Sonobe, K. Hayashi, S. Nakamura, M. Motoi, and T. Akagi 1669-1678
Signet Ring Cell Carcinoma in a Polyp of the Colon — A Case Report of a Six-year-old Boy: M. Hamazaki, S. Kono, J. Mimaya, and A. Ishihara 1679-1684
Appendiceal Endometriosis in Pregnancy — Report of a Case with Perforation and Review of the Literature: Y. Nakatani, M. Hara, K. Misugi, and H. Korehisa 1685-1690
Leiomyoblastoma of the Greater Omentum — A Case Report and Review of Literature: H. Mashimoto, T. Matsuo, H. Maeda, T. Ikeda, T. Tomioka, T. Yamaguchi, T. Tsunoda, N. Harada, and R. Tsuchiya 1691-1698
Brushite in Fibrous Dysplasia of the Jaw Bone: H. Yamamoto and T. Sakae 1699-1705

Number 11

Ultrastructural Cytochemical Studies on the Cell Coat of Macrophages and the Localization of Fibronectin in Granuloma Formation: T. Nakamura and M. Hotchi 1707-1718

Characteristics of Histiocytic Lesions in the Reticuloendothelial System of NZB Mice: Y. Sadahira, M. Mori, M. Ozaki, and M. Awai 1719-1729
Expression of Ha-*ras* Oncogene Product in Rat Gastrointestinal Carcinomas Induced by Chemical Carcinogens: W. Yasui, H. Sumiyoshi, T. Yamamoto, N. Oda, T. Kameda, T. Tanaka, and E. Tahara 1731-1741
Antitumor Effects of Polysaccharides of Human-type *Mycobacterium Tuberculosis* on Collagenation in Human Cancer Xenografts: T. Kimoto and S. Watanabe.... 1743-1761
Studies on Glomerular Immune Solubilization by Complement in Patients with IgA Nephropathy: Y. Tomino, H. Sakai, A. J. Woodroffe, and A.R. Clarkson .. 1763-1767
Lysozyme Activity of Cystic Mucosal and Submucosal Glands in the Stomal Area of the Gastric Remnant: R. Wada, H. Abe, Y. Aze, M. Sung, T. Ishioka, K. Taki, N. Kuwabara, and Y. Fukuda 1769-1776
Immunoelectron Microscopical Study of Non-lymphocytic Leukemic Cells — Expressing Human Granulocyte Antigen Defined by Monoclonal Antibody 1G10: A. Takagi, I. Emura, K. Nemoto, T. Fukuda, and Y. Ohnishi 1777-1785
Hairy Cell Leukemia — Electron Microscopic Observations of Two Cases: K. Inoue .. 1787-1796
Autopsy Findings in a Japanese Patient with Acquired Immunodeficiency Syndrome: H. Nakamine, E. Shimizu, E. Nishino, T. Takenaka, J. Maeda, and M. Hanaoka 1797-1809
Familial Hemophagocytic Reticulosis — Clinicopathologic Findings, and Cytochemical, Immunohistochemical and Electron Microscopic Studies: K. Nemoto and Y. Ohnishi 1811-1822
Congenital Muscular Dystrophy of the Fukuyama Type (FCMD) with Severe Myocardial Fibrosis — A Case Report with Postmortem Angiography: K. Miura and H. Shirasawa..... 1823-1835
Mesenteric Fibromatosis in Familial Polyposis — A Case Report and a Review of Japanese Cases: S. Suehiro and K. Inai 1837-1843
A Case of Leiomyoma of the Lamina Muscularis Mucosae of the Esophagus with a Complication of Carcinoma *in situ* of the Overlying Mucosa: M. Watanabe, T. Baba, M. Hotchi, and J. Shiobara 1845-1851
Benign Renal Angiomyolipoma with Regional Lymph Node Involvement — Report of a Case Showing Enlargement Five Years After Nephrectomy: T. Manabe, T. Moriya, and M. Kimoto 1853-1858

Number 12

Resistance of Human Bronchial Epithelial Cells to Teleocidin in a Two-stage Carcinogenesis Experiment: S. Teshima, Y. Shimosato, T. Kodama, T. Koide, M. Suganuma, and H. Fujiki 1859-1865
Early Ultrastructural Changes in the Biliary Epithelial Cells of BALB/c and DDY Mice Immunized with Swine Serum: S. Itagaki, K. Honjo, K. Doi, and T. Mitsuoka 1867-1878
Histopathological Investigation of DMF-induced Hepatotoxicity: H. Itoh, T. Uchikoshi, and K. Oikawa..... 1879-1889
Early Changes in Cerebral Aneurysms in the Internal Carotid Artery/posterior Communicating Artery Junction: K.N.T. Kayembe, H. Kataoka, and F. Hazama 1891-1901
Ras P21 Expression in Nephroblastoma Group Tumors: I. Aoki, S. Yanoma, K. Misugi, Y. Sasaki, and S. Kikyo..... 1903-1907

Electron Microscopic Evidence for Epidermal Growth Factor Receptor (EGF-R)-like Immunoreactivity Associated with the Basolateral Surface of Gastric Parietal Cells: S. Mori, Y. Morishita, K. Sakai, S. Kurimoto, M. Okamoto, T. Kawamoto, and T. Kuroki 1909–1917
Pathological Studies on Three Cases of Cancer Treated with Polysaccharides from Human-type *Mycobacterium Tuberculosis* — Antitumor Activity through Collagen Fiber Proliferation: T. Kimoto 1919–1934
Pulmonary Hypertension in Hepatitis B Virus Carriers: M. Ito, M. Honda, S. Shikuwa, Y. Kawase, K. Matsumoto, J. Ohi, I. Sekine, and H. Fujii 1935–1943
Combined Hepatocellular and Cholangiocarcinoma Arising in a Cirrhotic Liver — Report of an Autopsy Case: H. Sonobe, K. Hayashi, K. Takahashi, Y. Ohtsuki, K. Matsumoto, S. Onishi, and K. Jinno 1945–1952
Liver Injury with Perivenular Fibrosis and Alcoholic Hyalin after Pancreatoduodenectomy for Pancreatic Carcinoma: Y. Nakanuma, G. Ohta, I. Konishi, and Y. Shima 1953–1960
A Light and Scanning Electron Microscopic Study of Hepatic Veno-occlusive Disease: M. Shirai, K. Nagashima, S. Iwasaki, and W. Mori 1961–1971
Nonspecific Simple Eosinophilic Granulomatous Prostatitis with Eosinophilia in Peripheral Blood — A Case Report: H. Sugiura, M. Hayashi, M. Shimamura, and F. Matsubara 1973–1977
Placental-site Trophoblastic Tumor of the Uterus — Clinicopathological and Immunohistochemical Observations of a Case: Y. Yamamoto, H. Otsuka, S. Numoto, T. Kinoshita, and T. Doi 1979–1986
Primary T-cell Lymphoma of the Thyroid: Y. Mizukami, F. Matsubara, T. Hashimoto, S. Terahata, N. Ikuta, S. Nakamura, and A. Ooi 1987–1995
